

We are hiring

Process operators

VPK is an international packaging supplier with more than 6,400 employees in 70 locations across 20 countries. We have a long history in the town of Selby and you will probably remember us as Rigid before we re-branded. In the UK and Ireland we now have seven specialist sites producing high quality sustainable packaging for a range of manufacturing sectors and industries including supermarkets and e-commerce products.

Why we need you!

At VPK we are incredibly busy and we need hardworking committed employees to join us. Corrugated cardboard production is a busy growing sector, and the demand for sustainable packaging is surging and will continue to do so. During the pandemic we have been an essential service, and provided sustainable packaging to supermarkets and other industries. Our employees valued working in a busy, thriving industry during this time, when there was so much job uncertainty in other industries.

Our Selby site

Our Selby site has progressed extensively over the past 10 years and is one of the most state-of-the-art corrugated packaging production facilities in the UK. This enables us to provide the high level of service expected from our customers but also gives you an amazing working environment.

Be part of our family

Our employees' passion for the job is our company's biggest asset. The development and welfare of our employees is key to the ongoing success of our business. By joining VPK you will be part of our pan-European family, with all the opportunities and prospects that that brings, but also work within a local friendly working environment.

You'll have good literacy and numerical skills, be computer literate, enjoy working as part of a team, have good communication skills, strong attention to detail, and a positive attitude to work.
